

THE FUTURE OF WORK

The Labour Party is the party of work but work is changing, and changing fast. Old certainties are gone and for many, the promise of a job for life has disappeared.

The Labour Party is taking the lead in charting the future of work – in a way that offers hope and genuine opportunity to all our people, not just a chosen few.

Join us at our public meeting to discuss how we can ensure this is a future that works for us all or take part in our online survey via www.labour.ie/futureofwork.
